

File Code: 5420
Date: July 18, 2018

Dear Interested Party,

As a result of the objection review and resolution process conducted for the Education Land Grant Transfer of National Forest System Lands to Washoe County School District Project (52446) the objector, Mr. James Verner agreed to withdraw his objection if the Humboldt-Toiyabe National Forest agreed to notify the Washoe County School District that a final decision in the project would not be signed until:

1. The Washoe County School District has submitted to the Forest Service a revised plan of development that depicts the most current school facility site plan.
2. The Washoe County School District has provided supplemental information demonstrating that it can meet or it has fulfilled the requirements of the Education Land Grant Act related to the revised plan of development.
3. The Forest Service reviews and, if necessary, revises or supplements the EA with this new information.
4. The Forest Service makes a revised environmental assessment available for public review for 30 days.
5. The Forest Service holds a public meeting within the 30-day public review period.

On July 2, 2018 the Forest notified the Washoe County School District of the terms of the resolution and we are working with the school district to meet these terms. To date we have received the most recent revised plans for development that depict the most current school facility site plan. The School District has also provided the Forest with supplemental information demonstrating that it can meet or it has fulfilled the requirements of the Education Land Grant Act related to the revised plan of development. The Forest is currently reviewing this material and is preparing to supplement the Environmental Assessment with the updated material. A supplemented EA will be sent to the project mailing list by August 1, 2018 which will initiate a 30-day public review period. After the supplemented EA is sent a public meeting will be held at the Hunsberger Elementary School located at 2505 Crossbow Ct. Reno NV on August 9, 2018. The meeting will begin at 5:30 PM.

Thank you for your continued interest and support of this project.

Sincerely,

(FOR) WILLIAM A. DUNKELBERGER
Forest Supervisor
